

WHAT IS CURRICULAR PRACTICAL TRAINING (CPT)?

The Department of Homeland Security (DHS) defines [Curricular Practical Training](#) as alternative work/study, internship, cooperative education, or another type of required practicum that a sponsoring employer offers through cooperative agreements with your school. CPT **must** be related directly to the student's field of study and be a part of the school's established curriculum. Students must meet the criteria for CPT and obtain internship offer letter before CPT may be authorized, and an updated I-20 can be issued with CPT endorsement.

- CPT authorization is required **only** when the training is inside the United States (US) (e.g., a summer internship in a student's *home country* does **not** require CPT authorization or qualify for CPT).
- CPT can be approved for a student's final semester **only** if they are enrolled full-time (or have an approved reduced course load), and IDS 4941 has not been completed yet.
- CPT is **NOT** a way for students to earn money while attending school, to help secure a job after graduation, or to start OPT early. It will not be approved if it is not applicable to an experiential training/learning opportunity.
- CPT **CANNOT** be used as a reason for a program extension, and **students with the approved program extensions are ineligible to be considered for CPT.**
- CPT **CANNOT** be approved for students that have completed all program requirements for their degree and delay the completion of the academic program.

CPT CRITERIA

EGN 5911 RESEARCH: Students must be enrolled in a course that requires alternative work/study, an internship, cooperative education, or other type of required practicum. At Florida Poly, there is only one course that meets this requirement for all graduate students – EGN 5911. F-1 students must meet prerequisites for this course to apply for CPT.

ENROLLMENT: Students must be enrolled for one academic year (one Fall and Spring term) to participate in CPT.

Transfer students that have completed one academic at their previous school, or a total of one academic year between their previous school and Florida Poly can also meet the one academic year requirement this way. (**Exception:** *Student must have evidence from Faculty Advisor or Department Chair that off-campus internship is required before this*).

PART-TIME vs. FULL-TIME CPT: DSOs will authorize up to 12 months of CPT for students who are eligible, but students must meet CPT extension criteria. Students who participate in over 12 months of CPT are ineligible for OPT at the same degree level.

TERMS CPT CAN BE USED: CPT can be approved for the fall, spring, or summer semesters. While full-time enrollment is required for fall and spring, the **summer semesters** are not.

CPT EXTENSIONS: Students may request one extension **after** completing their initial CPT internship, **only** if the internship will be with the **same employer, completed consecutively, and not be for more than 12 months (for total CPT used at the same degree level)**. Students must provide explanation for extension and be re-enrolled into EGN 5911.

UNPAID INTERNSHIPS vs. VOLUNTEERING:

There is a difference between volunteering and an unpaid internship. F-1 students engaging in an unpaid internship off-campus **MUST** utilize and be eligible for CPT, or Pre-Completion OPT Training. If you are uncertain if an internship is considered unpaid employment or a form of volunteering, **please contact your DSO**, to ensure you do not violate the terms of your F-1 visa.

- **Volunteering** refers to donating time to an organization whose **primary purpose is charitable or humanitarian in nature**, without remuneration or any other type of compensation, and the activity is **unrelated** to the student's field of study or intended profession (e.g., donating time with the American Red Cross, working in a homeless shelter).
 - F-1 students are authorized to engage in volunteer work as long as it **meets the criteria** for performing civically charitable, or humanitarian reasons, without promise expectation or receipt of compensation.
 - Students **meeting** this requirement do **not** require CPT authorization but **must** provide a statement from the organization verifying the volunteer position and expectations (**all** criteria must be met for approval).
- **Unpaid internships** do **not** typically qualify as "volunteer" work. Internships, both paid and unpaid, are primarily offered by the private sector and related to the intern's field of study.
 - [The U.S. Department of Labor](#) has guidelines for unpaid internships; although the internship may include actual operation on the facilities of the employer, it must be similar to training given in an educational environment and be an experiential learning opportunity for the intern.
 - **If your unpaid internship is related to your field of study, and does not meet the parameters of volunteering, you will still require CPT approval.**

EMPLOYER REQUIREMENTS:

Internships offer letters are required and crucial to authorizing CPT. Letters must be on official letterhead and signed; additionally, ISS requires students and the employer to complete the [F-1 Off-Campus Employment Verification Letter](#).

HOW TO APPLY FOR CPT

1. Complete [Graduate CPT course](#) in CANVAS and obtain CPT Request form upon completion.
2. Obtain internship offer letter.
3. Submit CPT Request Parts I – III completed and signed, along with offer letter to ISS@floridapoly.edu.
4. Obtain CPT approval on I-20
5. Enroll in EGN 5911.
6. [Apply for SSN](#) if you do not already have one.
7. Start CPT internship.
